

SAF130 - Topics

Article:

You are to find a relevant article on the OSHA General Industry topic you choose at the beginning of the semester.

Write a brief summary of the article and findings.

Provide a reflection on the article and your opinion of the outcome or problem. If there is a violation or issue of OSHA, how might you solve this in the future? How could it have been prevented?

Make sure to cite the resource in APA format.

Max: 1 page

Demonstration:

Choose a valid topic from OSHA General Industry. Create a situation that could exist in reality and describe the problem, location, and other details about the scenario to build understanding.

You will present this scenario to the class and facilitate a discussion in how this could be resolved and what the potential fines could be. If this relates to an existing issue, please cite.

Feel free to create a picture, demo, skit, or video to help set your scene.

Length: 8 min
